Mike,

We have reviewed the Permit Modification documents and have only one comment on the Interim Configuration Water Flow Balance Line Diagram. Flows from ash pond D should have the option of being routed through Ash Pond E (if we use for interim storage before treatment) or directly to treatment and then to Outfall 005. Please see attached diagram.

John

**Sent via:** Info Exchange  
**Expiration Date:** 8/10/2015  
**Remarks:** Kenneth,

The VPDES Industrial WW Permit Modification Package is enclosed. The same personnel/information is utilized, where applicable, as provided to GAI in the Station's Permit Reissuance Application as well as the 2014 VPDES Permit Modification.

The Conceptual Engineering Report to accompany the Modification Package is

under review and finalization and is to be issued on Wednesday, 7/29.

Sincerely,  
Scott Quinlan
